INSURANCE POLICIES

ARE DESIGNED TO

protect

YOUR INCOME

AND ASSETS WHEN

THINGS *get scary.*

It may be too late to sell that stock you held on to -- but now is the perfect time to start looking at insurance strategies that can protect your assets now and in the future. Do you have life insurance? Are there people who depend on you for your income? Do you have the disability insurance you need? Despite the economy, there is no better time to buy insurance than when you are relatively young, healthy and in the middle of life. If you have insurance questions, please e-mail our President, Danny Mensh at askdanny@menshinsurance.com -- we'll be happy to answer them. Or visit our web site at www.menshinsurance.com.
